

OTTOCORD PUR-HS-B3

The open-cell PUR back-up foam rod firm

Extruded polyethylene backfilling material

For indoor application

PUR-HS

Characteristics

- › Backfilling material made of polyurethane
- › For interior use without wet load
- › Firm and rigid quality
- › According to the building material class B3

Fields of application

- › Backfilling of joints in interior areas

Technical properties

Density in raw state
according to ISO EN 845
[kg/m³] ~ 18 - 22

Compressive strength at
40 % according to DIN 53
577 [kPa] ~ 16 - 26

Tensile strength according
to DIN EN ISO 1798 [kPa] > 110

Breaking expansion
according to DIN EN ISO
1798 [%] > 50

Compression set according
to ISO EN 1856 [%] < 5

Tear strength according to
ISO EN 8067 [N/mm] > 0,4

Temperature resistance
from/to [°C] - 30 / + 80

Colour yellow

Important information

For wet load, we recommend the closed-cell PE back-up foam rod OTTOCORD PE-B2.

Application information

The optimum ratio of joint width to joint depth is an important requirement for as long a life as possible of an elastic joint. Building component joints are frequently too deep for a professional joint dimensioning. For this reason, a limit of the joint depth must be performed using the OTTOCORD PUR-HS-B3 back-up foam rod, simultaneously preventing a three-edge bond in order to restrict the flexibility of the sealant in the joint. OTTOCORD PUR-HS-B3 has an open-pore cell structure, making it unsuitable for damp rooms and outdoors. For this reason, we recommend the closed-pore OTTOCORD PE-B2 back-up foam rod. In comparison to OTTOCORD PUR-H-B3, OTTOCORD PUR-HS-B3 is somewhat more pressure-resistant resp. tighter. The foam rod should be applied to the pre-defined joint by applying a gentle clamping effect. The diameter of the back-up foam rod should be around 20% greater than the width of the joint so that it can be applied to the joint applying pressure and so that it then retains an oval shape in the joint. Further information is available from the OTTO Professional guide "Joints perfectly

Packaging

Diameter	Order unit (OU)	Packaging unit (PU)	Order code
10 mm	100 x 1 m pc.	1500 x 1 m pc.	PUR-HS-10
15 mm	100 x 1 m pc.	1000 x 1 m pc.	PUR-HS-15
20 mm	100 x 1 m pc.	500 x 1 m pc.	PUR-HS-20
25 mm	100 x 1 m pc.	300 x 1 m pc.	PUR-HS-25
30 mm	100 x 1 m pc.	200 x 1 m pc.	PUR-HS-30
35 mm	180 x 1 m pc.	180 x 1 m pc.	On request
40 mm	100 x 1 m pc.	100 x 1 m pc.	PUR-HS-40
50 mm	100 x 1 m pc.	100 x 1 m pc.	On request
60 mm	50 x 1 m pc.	50 x 1 m pc.	On request

On request: Delivery time of 2-3 weeks

Disposal

Product residues can be disposed of along with industrial waste as mixed plastics. Packaging materials (cardboard boxes, foils) are recyclable and hence should be recycled.

Warranty information
