

OTTOSEAL® S 130

757

Hermann Otto GmbH
Krankenhausstr. 14, 83413 Fridolfing, Germany
2014
OC0130B

EN 15651 - 1, EN 15651 - 3,
1-component silicone sealant, neutral curing
for application in the facade
for application in the sanitary area

- Type F EXT-INT, S
- Conditioning: Process A
- Carrier material: anodised aluminium
- Pretreatment: OTTO Primer 1216

Fire behaviour	Class E
Release of chemicals hazardous to health and/or the environment	evaluated
Water- and airtightness	
a) Stability under load	≤ 3 mm
b) Volume loss	≤ 10 %
c) Tensile behaviour, i.e. stress expansion under pretensioning after submersion in water	passed (NF)
d) Microbiological growth	0
Durability	passed (NF)
