Formation of toxic gases is possible during heating or in case of fire.

5.3 Advice for firefighters

• Protective equipment: Do not inhale explosion gases or combustion gases.

SECTION 6: Accidental release measures

• 6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation

(Contd. on page 3)

EU-gb

according to Regulation (EC) No 1907/2006, Article 31

Printing date 24.06.2025

Version 1

Revision: 24.06.2025

#### Trade name: OTTOSEAL A 220 Turbo

- (Contd. of page 2) • 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- · 6.3 Methods and material for containment and cleaning up:
- Dispose contaminated material as waste according to section 13.
- 6.4 Reference to other sections See Section 8 for information on personal protection equipment.

## SECTION 7: Handling and storage

- **7.1 Precautions for safe handling** Ensure good ventilation/exhaustion at the workplace. see item 8: Personal protective equipment
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage
- · Requirements to be met by storerooms and receptacles: Prevent any seepage into the ground.
- · Information about storage in one common storage facility: Store away from foodstuffs.
- *Further information about storage conditions:* Store in cool, dry conditions in well sealed receptacles. Protect from heat and direct sunlight.
- · 7.3 Specific end use(s) No further relevant information available.

#### SECTION 8: Exposure controls/personal protection

- · 8.1 Control parameters
- · Ingredients with limit values that require monitoring at the workplace:
- · Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- Appropriate engineering controls No further data; see section 7.
- · Individual protection measures, such as personal protective equipment
- · General protective and hygienic measures
- The usual precautionary measures are to be adhered to when handling chemicals. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.
- **Respiratory protection:** Not required.
- · Hand protection Protective gloves.
- Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

- Recommended glove types: nitrile rubber
- Recommended thickness of the material: >0,4 mm
- · Penetration time of glove material Breakthrough time: 10 30 min
- · Eye/face protection Safety glasses
- **Body protection:** Protective work clothing.

#### **SECTION 9: Physical and chemical properties**

• 9.1 Information on basic physical and chemical properties General Information Physical state Liquid · Colour: According to product specification · Odour: Characteristic • Melting point/freezing point: undetermined · Boiling point or initial boiling point and boiling range Not applicable. · Lower and upper explosion limit · Lower: not applicable

according to Regulation (EC) No 1907/2006, Article 31

	(Contd. of page 3)
Upper:	not applicable
Flash point:	Not applicable (test methods for flash point not valid
	for pasty substances and highly viscous liquids)
Decomposition temperature:	Not determined.
pH	Not applicable.
Viscosity:	Not determined.
Solubility	
Water:	Dispersible
Partition coefficient n-octanol/water (	log
value)	Not determined.
Vapour pressure:	Not determined.
Density and/or relative density	
Density:	see technical data sheet
Relative density	Not determined.
Vapour density	Not determined.
Particle characteristics	undetermined
9.2 Other information	
Form:	pasty
Explosive properties:	Not determined.
Information with regard to physical ha	azard
classes	
Aerosols	Void
Flammable liquids	Void

#### SECTION 10: Stability and reactivity

- · 10.1 Reactivity No further relevant information available.
- 10.2 Chemical stability
- **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications. Avoid strong heating.
- 10.3 Possibility of hazardous reactions No dangerous reactions known
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products: No dangerous decomposition products known

#### **SECTION 11: Toxicological information**

- · 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008
- · Acute toxicity Based on available data, the classification criteria are not met.
- · <u>LD/LC50 values relevant for classification:</u>

13463-67-7 titanium dioxide

Oral LD50 >5,000 mg/kg (rat)

Dermal LD50 >5,000 mg/kg (rabbit)

Inhalative LC50/4 h >6.82 mg/l (rat)

• Primary irritant effect:

• Skin corrosion/irritation Based on available data, the classification criteria are not met.

• Serious eye damage/irritation Based on available data, the classification criteria are not met.

- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Germ cell mutagenicity Based on available data, the classification criteria are not met.

• Carcinogenicity Based on available data, the classification criteria are not met.

• Reproductive toxicity Based on available data, the classification criteria are not met.

• STOT-single exposure Based on available data, the classification criteria are not met.

• **STOT-repeated exposure** Based on available data, the classification criteria are not met. • **Aspiration hazard** Based on available data, the classification criteria are not met.

#### · 11.2 Information on other hazards

• Endocrine disrupting properties None of the ingredients is listed.

### SECTION 12: Ecological information

- · 12.1 Toxicity No further relevant information available
- **12.2 Persistence and degradability** No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- **12.4 Mobility in soil** No further relevant information available.
- 12.5 Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · vPvB: Not applicable.

#### 12.6 Endocrine disrupting properties

This product does not contain components that are endocrine disruptors according to REACH Article 57(f) or Commission Delegated Regulation (EU) 2017/2100 or Commission Delegated Regulation (EU) 2018/605 in quantities of 0.1% or more.

- 12.7 Other adverse effects
- · Additional ecological information:
- General notes:

Do not allow product to reach ground water, water course or sewage system. Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.

#### **SECTION 13: Disposal considerations**

#### · 13.1 Waste treatment methods

#### · Recommendation

Observe local by-laws.

Already cured material can be disposed of with the domestic or commercial waste. Unconsumed material (fluid, paste-like) is to dispose of as hazardous waste.

#### Uncleaned packaging:

· Recommendation:

*Empty contaminated packagings thoroughly. They may be recycled after thorough and proper cleaning.* 

Packagings that may not be cleansed are to be disposed of in the same manner as the product.

## SECTION 14: Transport information

<ul> <li>14.1 UN number or ID number</li> <li>ADR, IMDG, IATA</li> <li>14.2 UN proper shipping name</li> </ul>	Void
