**OTTOFLEX®**  
Sealing strip  
Time-saving

**OTTOFLEX®**  
Slurry seal coating  
Highly impact resistant

**OTTOFLEX®** Sealing and  
decoupling strip  
Decoupling

# Tile adhesives tested in the OTTOFLEX® system

## Flexibility & security combined – with OTTO

Decide for yourself which tile adhesive you want to use. Numerous tile adhesives were tested in the system for sealing in combination with OTTOFLEX® protective coating, sealing strip or sealing and decoupling strip, all to suit your application – ceramic tiles, large format or natural stone? This allows you to decide which tile adhesive you prefer to work with most with our OTTOFLEX® compound sealing – and all components are tested in a system nevertheless.
