Colour recommendations

OTTOSEAL® S70

The premium natural stone silicone

Desvres France

Index: 16.11.2015

Cermijoint TX	OTTOSEAL® S70	
Gris Portland	C18	sanitary grey
Gris clair	C1108	autumn-grey
Gris foncé	C137	anthracite grey
Gris moyen	C1109	night-grey

These colour recommendations between pre-fabricated grouts and the corresponding OTTO sealants have been made without taking the colours of floor/wall coverings into account. In the end the optical appearance of the colour of the finished floor/wall will be decisive for the final choice of the sealant colour.

We have set up this colour table in front of you as suggestion without obligation. For your own colour comparisons please order our most recent colour charts with original colour dots! Please note that changing conditions on the building site and varying application techniques for the grouts can lead to colour deviations.

Please see the relevant technical data sheets for technical information and application suggestions for our sealants.

The table in front of you will be updated following market developments. With these colour comparisons all former tables loose their validity.
