Important information:

Please observe the accompanying operating instructions before use.
A at least partly filled aerosol can should be mounted permanently to the dosing gun, so that the OTTOPUR foam in the gun stays under pressure. Please shut the adjusting screw after use.
If the dosage gun has to be taken out of service, it must be cleaned using OTTOPUR Cleaner immediately following unscrewing. Regular use considerably extends the service life and functionality of the dosage guns.
Hardened foam residue can only be mechanically removed.
Never remove the can by using force.
